

KB international is an import&export company, located in Turkey and operating globally. After several years of collaboration with our providers, we developed our brands in 4 main products, which are olive oil extractions, dates, sea food and Tuna fish. All our products are CE certified. Turkey with a very advanced logistic platform and a vaste market was our connection point that encouraged us to expand our business to the whole world.

The image is overlaid with a dark blue hexagon and a white hexagon. The text "Olive Oil" is written in white serif font inside the dark blue hexagon.

Olive Oil

# Olive Oil

Our Company is engaged by a consortium of 12 producers of Olive oil to export their different products.

Thanks to the characteristics of this consortium (12 producers from different regions of Tunisia) our company has a rich variety of taste of pure olive oil.

In the past five years and encouraged by the good quality of olive oil that we produce in Tunisia we earned international awards in competitions like NYIOOC .

Our Capacity of production reaches up to 78.000 metric ton. We are mainly supplying the Tunisian market and exporting to European countries such as Spain, France, Italy and Greece in bulk.

Our Goal for the year 2021 is to expand our export market share to other countries and to offer a premium quality product with a competitive price.

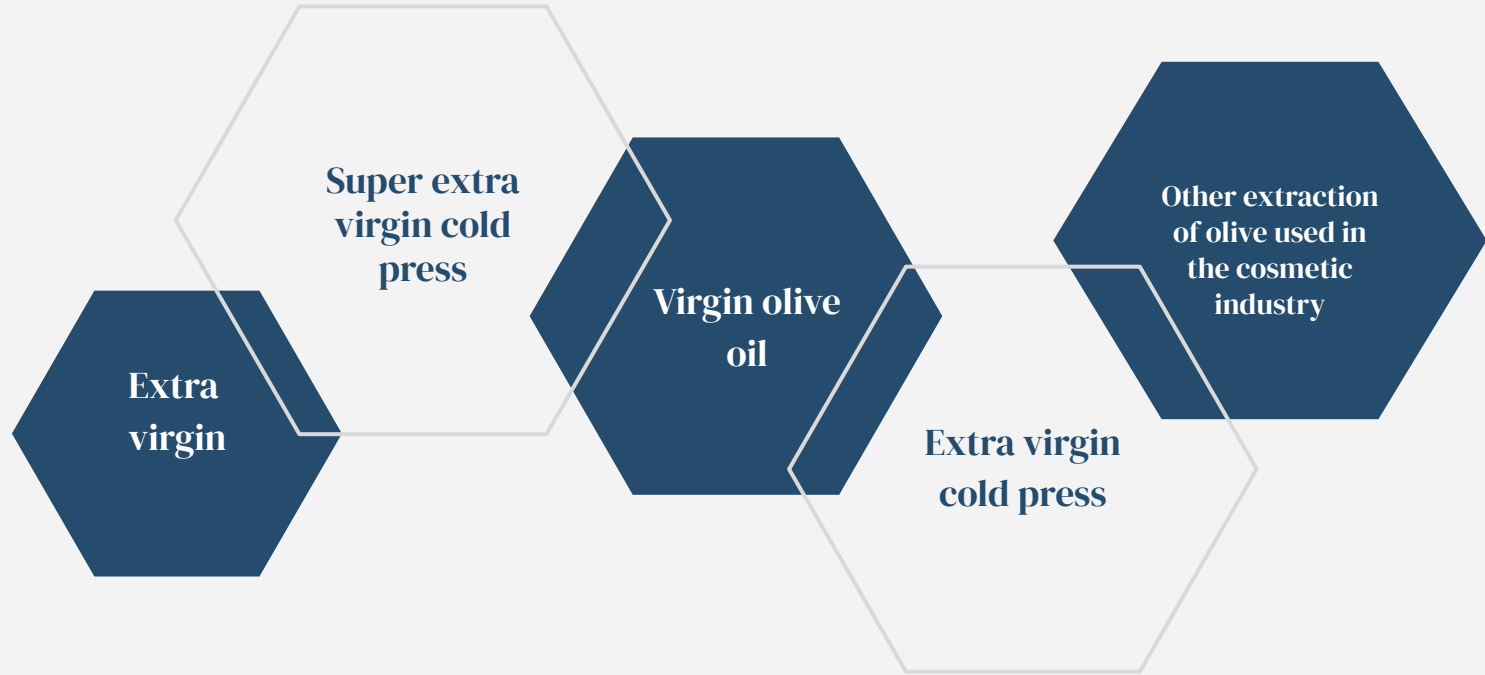

# Olive Oil

The olive that we use is coming from more than 60 years old olive trees.

We only use the mechanical process for the extraction, and we do not use any additions, therefore, we keep the nutrients of the olive oil and we save the best flavors of Mediterranean.

# Types of olive oil we supply

Our production facilities are fully certified by the National Office of Olive Oil in Tunisia.

## *We can provide the following quantities*

- 10.000 metric ton Super Extra Virgin.
- 20.000 metric ton Extra Virgin.
